SORBENT ROLLS • SKIMMERS • SPILL KITS • ROOF LEAK DIVERTERS • SAFETY CABINETS • CONTAINMENT BERMS

SORBENT ROLLS CONTROL SPILLS & OVERSPRAY

Rolls are sonically bonded for extra tensile strength and include a non-linting top scrim layer. Rolls are perforated every 19 cm vertically and 43 cm horizontally for maximum flexibility. Available in full and split widths.

- White/Blue for oil-based liquids only – won't absorb water.
- Grey will handle both oil-based and water-based non-aggressive liquids within pH 3-12
- Yellow for chemicals and universal non-aggressive liquids

THE PROPER ABSORBENT FOR YOUR SPECIFIC APPLICATION:

- Heavy Weight for fast spill clean up
- Standard Weight for use around base of equipment
- Light Weight for quick wipe ups and light duty spills/leaks

Call 1-800-387-7581 for Professional Assistance or customized kits.

APPLICATION	TYPE	PART#	PACKAGE
OIL ONLY	HEAVY FULL WIDTH	WRHW44B	1 – 45.7 M X 76 CM
OIL ONLY	STANDARD FULL WIDTH	WRMW44B	1 – 45.7 M X 76 CM
OIL ONLY	LIGHT FULL WIDTH	WRLW88B	1 – 91.4 M X 76 CM
UNIVERSAL	HEAVY FULL WIDTH	GRHW44B	1 – 45.7 M X 76 CM
UNIVERSAL	STANDARD FULL WIDTH	GRMW44B	1 – 45.7 M X 76 CM
UNIVERSAL	4-WAY PERFORATION	GRP430	1 – 30.4 M X 38 CM
	HEAVY FULL WIDTH	OSU384	1 – 45.7 M X 76 CM

All rolls available in split widths – 2 Rolls/Bag – 38 cm wide

SORBENT SOCKS

Surround the perimeter of a spill to minimize the clean-up area. Easy to place around base of equipment to stop the leak at its source. Polypropylene based filler in a knitted sleeve resulting in a sturdy seamless sock. Available in two convenient lengths

- White/Blue for oil-based liquids only – won't absorb water
- Grey/Tan will handle both oil-based and water-based non-aggressive liquids within pH 3-12
- Yellow for chemicals as well as universal non-aggressive liquids

APPLICATION	TYPE	PART#	PACKAGE
OIL ONLY	REGULAR	OSB30	30 – 1.2 M X 7.7 CM
OIL ONLY	LARGE	OSB10	10 – 3.6 M X 7.7 CM
UNIVERSAL	ORIGINAL 'CORN COB'	GR40	40 – 1.2 M X 7.7 CM
UNIVERSAL	REGULAR	PK130	30 – 1.2 M X 7.7 CM
UNIVERSAL	LARGE	PK110	10 – 3.6 M X 7.7 CM
CHEMICAL	REGULAR	YSC30	30 – 1.2 M X 7.7 CM
CHEMICAL	LARGE	YSC10	10 – 3.6 M X 7.7 CM

SORBENT PADS IDEAL FOR UNDER PARTS AND EQUIPMENT

Pads are sonically bonded for extra tensile strength. They include a non-linting top scrim layer, making them ideal for wipe-down applications. They are perforated down the middle, allowing the user to choose how much sorbent is needed.

- White/Blue for oil-based liquids only – won't absorb water
- Grey will handle both oil-based and water-based non-aggressive liquids within pH 3-12
- Yellow for chemicals and universal non-aggressive liquids

THE PROPER ABSORBENT FOR YOUR SPECIFIC APPLICATION:

- Heavy Weight for fast spill clean up
- Standard Weight for use around base of equipment
- Light Weight for quick wipe ups and light duty spills/leaks

APPLICATION	Type	Part#	PACKAGE
OIL ONLY	HEAVY WEIGHT	WPH100	100 – 38.1 X 48.3 CM
OIL ONLY	STANDARD WEIGHT	OSC100	100 – 38.1 X 48.3 CM
OIL ONLY	LIGHT WEIGHT	WPL200	200 – 38.1 X 48.3 CM

CHEMICAL	HEAVY WEIGHT	OSU170	100 – 38.1 X 48.3 CM

OIL ONLY BOOMS & PILLOWS

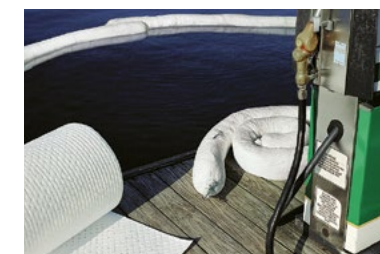

Utilizing UV resistant nylon meshing and a strong inner sleeve, OILWIK™ Booms are the ideal choice for oil-on-water spills that require rapid clean-up and containment. Pillows have the same benefits and features as our OILWIK™ Booms, but in smaller sizes for sumps, interceptor tanks, bilges, and catch basins.

- Premium double-sleeve prevents shedding of filler into watercourse
- Reinforced rope runs through core of boom for easy retrieval when saturated
- Couplings attached to help connect boom sections together for larger coverage

APPLICATION	TYPE	PART#	PACKAGE
OIL ONLY BOOMS	REGULAR	OS510S&N	4 – 3 M X 12.7 CM
OIL ONLY BOOMS	LARGE	OS810S&N	4 – 3 M X 20.3 CM
OIL ONLY PILLOWS	LARGE	OS10PSN	10 – 20.3 X 45.7 CM
OIL ONLY PILLOWS	MEDIUM	OS515	12 – 12.7 X 38.1 CM
OIL ONLY PILLOWS	SMALL	OS318	20 – 7.6 X 45.7 CM

SELF-CONTAINED SORBENTS

APPLICATIONS:

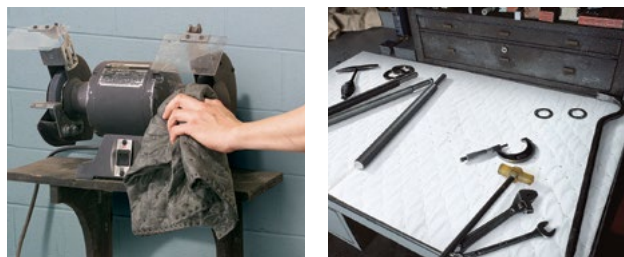

- Pads for placing under parts and within contained spills
- Socks to surround machinery or contain a spill
- Rolls for laneways in front of machinery
- Booms to float on waterways

COLOUR CODED:

- White/Blue for oil-based liquids only – won't absorb water
- Grey/Tan will handle both oil-based and water-based non-aggressive liquids within pH 3-12
- Yellow for chemicals and universal non-aggressive liquids

FEATURES:

- Socks & Booms have non-linting outer sleeve
- Pads & Rolls are perforated so you can easily tear off sections
- Pads & Rolls include non-linting top scrim layer

SECONDARY CONTAINMENT

Wide range of products for safe secondary containment whether handling, storing, or using drums, pails, or totes of liquids within your facility.

- Low profile decks
- Higher Capacity pallets
- Ergonomic IBC pallets
- Covered Units for outdoor storage
- Cylinder Lockers
- Oily Waste Cans for used rags/sorbents
- Dispensing Safety Cans
- DOT and UN approved Overpaks
- Polyethylene Drums with quick-release rings
- Fire-Rated Safety Cabinets with exclusive 10 year warranty
- Many more – Call for details

REGULATORY COMPLIANCE

1. EPA 40 CFR 264.175 – Containment Storage
2. Uniform Fire Code 8003.1.3.4 – Pallets
3. OSHA 29 CFR 1910.106 (e)(2)(ii)(b) – Incidental Storage or use of flammable and combustible liquids.
4. National Fire Code of Canada 2010 4.2.10. – Storage Cabinets
5. 49 CFR 173.3(c) (1) – Overpaks
6. OSHA 29 CFR 1910.106 (a) (29) – Safety Cans

HEAVY DUTY MATTING

For your most demanding applications

HEAVY DUTY "RIG RUG" OUTDOOR APPLICATIONS

- Strong enough to drive a forklift over it, place heavy equipment on it, and stand up to rig traffic on drill sites
- Strong needle punch material lets mat grip the floor, reducing slip hazards
- UV protected, making it ideal for outdoor use

CAMOUFLAGE SURVIVORMAT INDOOR APPLICATIONS

- Camouflage design makes leaks & drips disappear so mats last longer
- Top layer wicks the liquid into the middle core where it is trapped, keeping floors dry
- Rolls perforated so you use only what you need

3-PLY TRAINMAT OUTDOOR AROUND RAIL TIES

- UV resistant top layer allows water to bead off
- Oil only absorbing middle layer
- Leak-proof polybacking protects the roll from gravel and ground debris.

SKIMMERS REMOVE OIL OUT OF WASTE WATER

BENEFITS OF SKIMMING

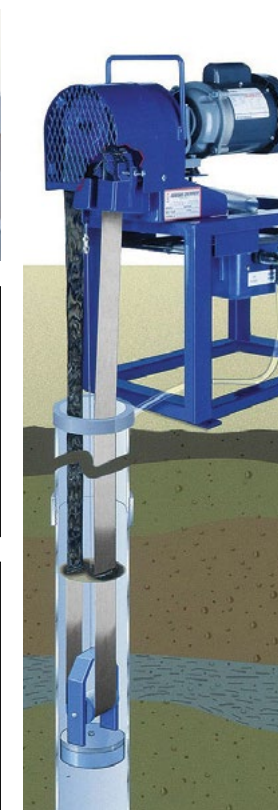

- Inexpensive way to remove oil from water
- Saves coolants by removing tramp oil
- Conserves parts wash water by removing oily waste
- Prevents plugging of spray heads and filters
- Reduces fluid disposal costs
- Skimmed oil can be recycled and reused as a lubricant or fuel
- Helps meet government requirements for water discharge

ADVANTAGES

- A single unit elevates and separates oil
- Maintains skimming efficiency in fluctuating fluid levels
- Lifts oil any distance without the need of expensive pumps
- Can be used in depths as shallow as 0.3 m, or as deep as 30 m
- Requires no tank modifications in most applications
- Easy mounting and fast cleaning, with minimal maintenance

TYPICAL APPLICATIONS

- Wastewater sumps
- Parts washers
- Coolant systems
- Heat treating fluids
- Food processing plants
- Parking lots, garages, and service facilities
- Aircraft service areas and tarmac runoff
- Truck, locomotive, and other mobile equipment washing facilities

SPILL RESPONSE KITS

– Size and style to meet your applications

- Hand Held Kits
- Mobile Facility Kits
- Outdoor Stationary Box Kits
- Drum Kits
- Tote Box Kits
- Misc. Specialized Kits

PORTABLE, REUSABLE CONTAINMENT BERMS

Designed for convenient secondary containment when dealing with drums, totes, pumps, generators, hoses, equipment and even vehicles.

SOME POPULAR STYLES:

- Drip Pad Berm – flat, weighted berm that you can insert pads into the centre for tidy clean ups
- Mini-Berm – portable, and lightweight containment berm – maximum size is 5'x6'
- Sentry Lite Berms – similar to Mini-Berms, but in larger sizes
- Tri-Phase Decon Berm -- convenient for emergency responders
- Insta-Berm – ideal for outdoor fuel storage
- Modular Berms – designed for use with hoses and couplings, allowing you to 'snake' it from the dispensing unit to the holding area
- NEW! RigidLock Berm – uniquely designed to be deployed quickly and conveniently, ideal for vehicle drive in/out applications

SPILL RESPONSE KITS – Be Prepared

Here is a simple checklist to help obtain a kit that meets your needs:

Q. WHAT type of liquid needs to be contained ?

- A. CHEMICAL (RPC___) Kits – For Acids & Caustics
- OIL ONLY (RPO___) Kits – For Oil-Based Liquids Only
- HYDROCARBON (RPH___) Kits – For Non-Aggressive Water- & Oil-Based Liquids

Q. WHERE could the spill occur ?

- | | |
|--|---------------------------------------|
| A. Fuel Transfer & Outdoor Storage Areas | Laboratories |
| Chemical/Oil Indoor Storage Areas | Shipping/Receiving Loading Doors |
| Forklift Recharging Station | Central locations throughout facility |
| Dispensing Stations | Waste Fluid Collection Stations |
| Trucks and Trailers | Marinas and Docks |

Q. HOW MUCH could potentially spill ?

- A. Spills can vary from a small incidental leak in a lab to a larger accident where a full drum tips over. We make it easy for you to choose the right size of kit. Our Part Number indicates the sorption capacity of the kit contents. Example: Hand held kit (RPH35) can absorb up to 35 litres.

ACCESSORIES

- | | |
|---|---|
| • Equipment – Squeegies, Brooms, Shovels | • Epoxy Putty Patchstick (4 oz.) in a resealable tube |
| • Warning – Safety Cones, Floor Signs, Barricade Tape | • Refill Packages |
| • Protective Clothing – Gloves, Goggles, Suits, Boots | • First Aid Kits |
| • Neoprene Drain Covers (3'x3') | |

ABSORBENTS

- Universal MRO Absorbents – Grey
- Oil Absorbents – Pads Rolls Socks
- HAZMAT Absorbents – Pads Rolls Socks
- Rig Rugs – Oilfield Absorbents

SECONDARY CONTAINMENT

- Stormwater Management
- Outdoor Storage Containment
- Outdoor Boom Containment
- Outdoor Miscellaneous Containment
- Indoor Drum Containment
- Low Profile Spill Decks
- Steel Spill Pallets
- IBC Totes & Spill Pallets
- Roof & Pipe Leak Diverters

SPILL KITS

- Hand Held Kits – Vehicles Labs, Facility
- Mobile Spill Kits – Facility
- Drum Spill Kits – Facility
- Stationary Spill Kits – Vehicles, Labs, Outdoor
- First Aid Kits & Accessories
- Misc Spill Kits
- Accessories

FUEL TREATMENTS

- Diesel Fuel Additive
- Gasoline Fuel Additive

EMERGENCY SPILL CLEAN UP & RESPONSE

- Oil Spills on Water
- HAZMAT Absorbents
- Facilities

PORTABLE & REUSABLE CONTAINMENT BERMS

- Portable Compact Containment Berms
- Fuel Containment Berms
- Drive Through Berms
- Storage Bladder Tanks

SKIMMERS & FILTRATION EQUIPMENT

- Skimmers
- Filter Bags

SAFETY CABINETS & CONTAINERS

- Safety Cabinets
- Type I Safety Cans
- Type II Safety Cans
- Type I Poly Safety Cans
- Plunger Safty Cans
- Oily Waste Cans
- Drums & Overpacks
- Accessories

SPILL KIT MAINTENANCE PROGRAM

Always be Prepared

We come in on a regular quarterly, semi-annual, or annual visit and inspect your kits and replenish on the spot. Service includes:

- Inspection and Inventory of Kits
- Restocking of Components
- Cleaning and Basic Repairs of Container
- Signing off on Inspection Tags
- Written Report of Findings

24 HR. ACCESS TO SPILL RESPONSE PRODUCTS

From Our Mississauga, On Facility

Spills can happen at any time. Sign up for your own exclusive entry code to get into our "Spill Cage" at your convenience. Includes:

- Sorbent Pads and Rolls
- Sorbent Socks and Booms
- Overpaks and Polyethylene Drums
- Loose Granular Sorbent
- Misc – Patchstick, Shovels, Plug N Dike, Drain Covers
- Personal Protective Clothing – Gloves, Suits, Goggles

RENEW INNOVATION

1st Canadian Full Service Sorbent Recycling Program

We rent you the pads/socks for daily maintenance clean up, and then come to your facility to pick up the sorbents for cleaning. The closed-loop system diverts waste from going into a landfill, and the clean sorbents are returned to you to reuse up to 40 times. Benefits Include:

- Process Improvement
- Corporate Responsibility
- Environmental Best Practices
- Premium Performance
- Written Waste Diversion Reports
